

# INTERNATIONAL GIS WORKSHOP

## “What we can do by GIS – Japan and World–”

Recently, Geographical Information System (GIS) has been progressed in the fields of not only earth sciences and disaster problems, but also medical sciences, economical and social sciences. Therefore, on the occasion of the international conference of INTREPRAEVENT2006, an international workshop will be held in titled of “what we can do by GIS-Japan and world”. In the workshop, we are learning and discussing what and how we can do by GIS in Japan and world by inviting several specialists on GIS from Japan, India and Russia. We are welcoming any audience of those who are interested in GIS technology.  
(No charge for admission)

Time: September 26 (Tue) 2006 10:00 am–17:00 pm

Place: Venture Business Laboratory, Niigata University

Organized by

GIS Study Group of Niigata University  
Niigata GIS Association

Supported by

INTERPRAEVENT2006 International Symposium in Niigata  
Niigata University International Academic Support Office  
Niigata University Center for Natural Hazard and Disaster Reduction

# PROGRAM

10: 00–10:15

Opening address and explaining the aim by organizers  
Greetings by the supporting organizations

10:15–12:00

**GIS using in Japan**

10:15–11:00

Prof Imai Osamu (University of Tokyo, Japan)

Development of Participation GIS in Japan

11:15–12:00

Mr. Mamoru Koarai (Geographical Survey Institute, Japan)

GIS present situation in Japan

12:00–13:00

Lunch time

13:00–16:00

**GIS using in the world**

13:00–14:00

Dr Shantanu Sarkar (Central Building Research Institute, Roorkee, India)

Role of GIS & Remote sensing in natural disaster management in India

14:00–15:00

Coffee break

15:00–16:00

Dr. Pavel Chernouss (Center for Avalanche Safety, Russia)

GIS using situation in Russia

16:00 –17:00

Free discussion

17:00

Closing address by the organizers
